

NEXORA SYSTEMS

Employee & Company Information Handbook

Document ID: NX-HB-2026-001 **Version:** 1.0 **Status:** Dummy/Test Document

This fictional handbook is designed for document parsing, search, extraction, classification, and question-answering tests. All people, addresses, codes, policies, and company details in this document are invented.

1. Company Overview

- **Company Name:** Nexora Systems Ltd.
- **Founded:** 2018
- **Head Office:** 42 Meridian Avenue, Northbridge, NB 20410
- **Industry:** Enterprise software, cloud services, and data platforms
- **Website:** www.nexora.example
- **Mission:** Build reliable digital tools that help organizations work securely and efficiently.
- **Core Values:** Integrity, customer focus, continuous learning, inclusion, accountability, and responsible innovation.

2. Company Guidelines

- Employees should communicate respectfully, protect company resources, follow approved procedures, and document important decisions.
- Remote employees must maintain a professional working environment and use company-approved devices and collaboration tools.
- Confidential information must only be shared with authorized recipients who have a legitimate business need.
- Employees should report suspected policy violations promptly through their manager, HR, or the Security Team.
- Conflicts of interest must be disclosed before an employee participates in a decision that could benefit them personally.

3. Code of Conduct

- Treat colleagues, customers, partners, and vendors with dignity and respect.
- Harassment, discrimination, bullying, retaliation, threats, and intimidation are prohibited.
- Company systems must not be used for unlawful activity, unauthorized commercial activity, or deliberate disruption.
- Employees must provide accurate business records and must not falsify expenses, timesheets, approvals, or customer information.
- Violations may result in corrective action up to and including termination, subject to applicable law and company procedure.

4. Information Security

- **Security Principle:** Assume company information is confidential unless it has been explicitly classified as public.
- **Password Rule:** Use unique passwords and the approved password manager. Never share passwords or authentication codes.
- **MFA:** Multi-factor authentication is required for email, source-control, production, and administrative systems.
- **Phishing:** Suspicious messages should be reported to security@nexora.example. Do not open unexpected attachments or enter credentials from untrusted links.
- **Devices:** Company laptops must use full-disk encryption, automatic screen locking, and supported operating-system versions.
- **Data Handling:** Customer data must not be copied to personal storage, personal email, or unapproved applications.

5. Security Codes & Emergency Information

- **Security Incident Code:** NX-SEC-4472
- **Critical Incident Severity:** SEV-1
- **Security Hotline:** +1-555-010-4472
- **Security Email:** security@nexora.example
- **Physical Office Emergency:** Call local emergency services first, then notify Facilities.
- **Important:** The codes above are fictional test values and are not real credentials, access codes, or secrets.

6. Courses & Training

- **SEC-101:** Security Awareness — required annually; estimated duration 45 minutes.
- **PRV-201:** Privacy & Data Protection — required for employees handling personal data; estimated duration 60 minutes.
- **ETH-110:** Code of Conduct — required during onboarding and every two years; estimated duration 30 minutes.
- **SAFE-120:** Workplace Safety — required annually; estimated duration 40 minutes.
- **AI-130:** Responsible Use of AI Tools — required for employees using approved AI systems; estimated duration 35 minutes.

7. Leave & Workplace Practices

- Employees should submit planned leave through the HR portal at least five business days in advance when practical.
- Managers are responsible for maintaining reasonable team coverage during planned absences.
- Employees working remotely should remain reachable during agreed working hours except during breaks or approved leave.

- Personal information about colleagues should not be collected or shared unless there is a legitimate business purpose.

8. Acceptable Technology Use

- Only approved software may be installed on managed company devices.
- Cloud storage must use company-approved accounts and access controls.
- Source code, credentials, customer records, and internal documents must not be uploaded to public repositories.
- AI assistants may be used only with approved tools and must not receive confidential, regulated, or customer-restricted information unless explicitly authorized.

9. Reporting & Contacts

- **Human Resources:** hr@nexora.example
- **IT Support:** helpdesk@nexora.example
- **Security:** security@nexora.example
- **Privacy:** privacy@nexora.example
- **Facilities:** facilities@nexora.example
- Reports may be made in good faith without fear of retaliation. False reports made deliberately to harm another person may be subject to disciplinary review.

10. Document Metadata

- **Owner:** Corporate Operations
- **Reviewer:** Information Security
- **Review Frequency:** Every 12 months
- **Next Review Date:** 2027-09-04
- **Classification:** Internal / Dummy Data
- **Keywords:** company, guidelines, courses, security, code of conduct, training, privacy, technology, reporting, contacts

Appendix A — Quick Reference Table

Topic	Owner	Reference
Code of Conduct	Human Resources	ETH-110
Security Awareness	Information Security	SEC-101
Privacy	Privacy Office	PRV-201
Workplace Safety	Facilities	SAFE-120
AI Use	Technology Governance	AI-130
